Learn today's management science concepts and techniques--and how they will benefit you in the classroom and business world beyond--with the definitive leader in management science, INTRODUCTION TO MANAGEMENT SCIENCE: A QUANTITATIVE APPROACH TO DECISION MAKING, 12E. The latest edition of this leading text blends a readable style with a wealth of examples that demonstrate how businesses throughout the world use management science techniques to further their success. Proven, realistic problems help strengthen critical problem-solving skills, while numerous self-test exercises with complete solutions allow you to immediately check your personal understanding of the material. Every new edition now includes the highly respected LINGO 10 software that is integrated with text problems to help you develop the skills to use this, Excel, and many other valuable software packages to resolve management science problems. This edition now places greater emphasis on the applications of management science and use of computer software with less focus on algorithms. Much of the algorithm coverage as well as Excel templates and add-in software, and the user-friendly Management Scientist software are available on the text's accompanying Student CD. Trust INTRODUCTION TO MANAGEMENT SCIENCE, 12E to introduce the management science skills you need now and into the future with clarity you can understand and practicality you can immediately apply.

From reader reviews:

Regina Laporte:

Reading a book to get new life style in this year; every people loves to go through a book. When you go through a book you can get a wide range of benefit. When you read textbooks, you can improve your knowledge, mainly because book has a lot of information into it. The information that you will get depend on what forms of book that you have read. If you wish to get information about your research, you can read education books, but if you want to entertain yourself read a fiction books, this kind of us novel, comics, and also soon. The An Introduction to Management Science: Quantitative Approaches to Decision Making (with CD-ROM and Crystal Ball Pro Printed Access Card) provide you with new experience in studying a book.

Harriette Corwin:

As a scholar exactly feel bored in order to reading. If their teacher requested them to go to the library or make summary for some reserve, they are complained. Just minor students that has reading's soul or real their hobby. They just do what the educator want, like asked to go to the library. They go to at this time there but nothing reading very seriously. Any students feel that looking at is not important, boring and also can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this An Introduction to Management Science: Quantitative Approaches to Decision Making (with CD-ROM and Crystal Ball Pro Printed Access Card) can make you sense more interested to read.

Lynnette Jennings:

What is your hobby? Have you heard in which question when you got learners? We believe that that query was given by teacher with their students. Many kinds of hobby, All people has different hobby. And also you know that little person such as reading or as reading through become their hobby. You have to know that reading is very important and book as to be the factor. Book is important thing to incorporate you knowledge, except your own personal teacher or lecturer. You get good news or update regarding something by book. Numerous books that can you decide to try be your object. One of them is actually An Introduction to Management Science: Quantitative Approaches to Decision Making (with CD-ROM and Crystal Ball Pro Printed Access Card).

Paul Lopez:

Some people said that they feel uninterested when they reading a publication. They are directly felt the item when they get a half parts of the book.
