GAME OF THRONES A Review: A Clash of Kings, A Storm of Swords, A Feast for Crows, A Dance with Dragons noman salehzada

GAME OF THRONES is a familiar name to those who follow television shows on a regular basis. The basic source of the series was A SONG OF ICE AND FIRE, written by George R. R. Martin. Each book of the series was instant hits not only because people loved the style of writing, but also because of the fact that the main outline of the series was fantasy for adults. The story may seem like a fantasy novel for kids, but the presence of serious royal politics, brutality in achieving personal goals make the content suitable for adults. The dragons and other fantasy-like characters along with the various magical incidents provide the meal for the kids as well. The mixture of fantasy and reality has been done with such delicacy that it becomes almost impossible to realize that differences.

This review has been designed in such a way that you will be able to get an idea about all the prime activities in a nutshell. The activities of various characters are mentioned (and not described) in such a manner that you will surely be attracted to read the entire novel. Igniting the readers' interest in the most "interesting" way has been the prime target of this review
