Python Algorithms: Mastering Basic Algorithms in the Python Language (Expert's Voice in Open Source) Magnus Lie Hetland

Python Algorithms explains the Python approach to algorithm analysis and design. Written by **Magnus Lie Hetland**, author of *Beginning Python*, this book is sharply focused on classical algorithms, but it also gives a solid understanding of fundamental algorithmic problem-solving techniques.

- The book deals with some of the most important and challenging areas of programming and computer science, but in a highly pedagogic and readable manner.
- The book covers both algorithmic theory and programming practice, demonstrating how theory is reflected in real Python programs.
- Well-known algorithms and data structures that are built into the Python language are explained, and the user is shown how to implement and evaluate others himself.
