Anatomy of a Single Girl Daria Snadowsky

"Curious teens will find Snadowsky's honesty refreshing, and like [Judy Blume's] *Forever* before it, this [book] is sure to be passed from hand to hand."--*Booklist*

After everything that happened—my first boyfriend, my first time, my first breakup—jumping back into the dating game seemed like the least healthy thing I could do. It's not that I didn't *want* to fall in love again, since that's about the best feeling ever. But as a busy college premed still raw from heartbreak, which is the *worst* feeling ever, I figured I'd lie low for a while. Of course, as soon as I stopped looking for someone, an impossibly amazing—and devastatingly cute—guy came along, and I learned that having a new boyfriend is the quickest way to recover from losing your old one.

The moment we got together, all my preconceptions about romance and sex were turned upside down. I discovered physical and emotional firsts I never knew existed. I learned to let go of my past by living in the present. It was thrilling. It was *hot*. It was just what the doctor ordered.

But I couldn't avoid my future forever.

In Daria Snadowsky's daring sequel to *Anatomy of a Boyfriend*, eighteen-year-old Dominique explores the relationship between love and lust, and the friendships that see us through.

"Dominique is a strong female character who makes informed decisions and demonstrates control over her own body and goals. . . . This book could be popular with girls who are curious and interested in reading about intimate young adult relationships."--*VOYA*

"Presents a multiplicity of opinions and stories about sex, intimacy and relationships and lets readers come to their own conclusions."--*Kirkus Reviews*

From the Hardcover edition.
