Pain and Sedation Management in the 21st Century Emergency Department, An Issue of Emergency Medicine Clinics, 1e (The Clinics: Internal Medicine) John T McManus MD MCR FACEP FAAEM, Benjamin Harrison MD FACEP

This book extensively reviews the increased understanding and development of pain and sedation management in the emergency department. Articles address measuring pain; changing physician and nurse attitudes about pain; the drug-seeking patient; aberrant drug-related behaviors; managing chronic pain in the acute care setting; painful dilemmas; pain in the pediatric population; prehospital pain management; basic pharmacological advances; placebo use; and future directions.
