An Introduction to Programming With C++ (Available Titles Skills Assessment Manager (SAM) - Office 2010) Diane Zak

An Introduction to Programming with C++, Fifth Edition is the latest C++ offering from Diane Zak. This book is distinct from other textbooks because of its unique approach, which motivates students by demonstrating why they need to learn the concepts and skills presented. Each chapter contains a Concept Lesson introducing one or more programming concepts and an Application Lesson containing five labs that help students master the content taught in the Concept Lesson. Also new in this edition of the book is a third lesson on .NET in which students learn how to use .NET C++ commands. This edition uses How To boxes to summarize important concepts and provide a quick reference for students. A Key Terms section has been added to the end of each Concept Lesson. The text also includes extensive end-of-chapter material, including Discovery and Debugging Exercises.
