This volume also provides an understanding of skin care products and their utilization in maintaining healthy skin. Disease states, including acne, eczema, photodamage, psoriasis and more, are discussed. Also, the new topical, injectable, and device products for skin rejuvenation are presented to build on the basics of skin physiology.

This latest edition takes the reader on a learning journey beginning with the formation of skin, moving on through the onset of puberty and adolescent issues, and finally discussing maturity and issues pertaining to perimenopausal and menopausal skin. Topics include:

- Skin structure
