Teaching Secondary Mathematics Douglas K. Brumbaugh, David Rock

Teaching Secondary Mathematics, Third Edition is practical, student-friendly, and solidly grounded in up-to-date research and theory. This popular text for secondary mathematics methods courses provides useful models of how concepts typically found in a secondary mathematics curriculum can be delivered so that all students develop a positive attitude about learning and using mathematics in their daily lives.

A variety of approaches, activities, and lessons is used to stimulate the reader's thinking--technology, reflective thought questions, mathematical challenges, student-life based applications, and group discussions. Technology is emphasized as a teaching tool throughout the text, and many examples for use in secondary classrooms are included. Icons in the margins throughout the book are connected to strands that readers will find useful as they build their professional knowledge and skills: Problem Solving, Technology, History, the National Council of Teachers of Mathematics Principles for School Mathematics, and "Do" activities asking readers to do a problem or activity before reading further in the text. By solving problems, and discussing and reflecting on the problem settings, readers extend and enhance their teaching professionalism, they become more self-motivated, and they are encouraged to become lifelong learners.

The text is organized in three parts:

- *General Fundamentals--Learning Theory, Curriculum; and Assessment; Planning; Skills in Teaching Mathematics;
- *Mathematics Education Fundamentals--Technology; Problem Solving; Discovery; Proof; and
- *Content and Strategies--General Mathematics; Algebra 1; Geometry; Advanced Algebra and Trigonometry; Pre-Calculus; Calculus.

New in the Third Edition:

- *All chapters have been thoroughly revised and updated to incorporate current research and thinking.
- *The National Council of Teachers of Mathematics Standards 2000 are integrated throughout the text.
- *Chapter 5, Technology, has been rewritten to reflect new technological advances.
- *A Learning Activity ready for use in a secondary classroom has been added to the end of each chapter.
- *Two Problem-Solving Challenges with solutions have been added at the end of each chapter.
- *Historical references for all mathematicians mentioned in the book have been added within the text and in the margins for easy reference.
- *Updated Internet references and resources have been incorporated to enhance the use of the text.

From reader reviews:

Erma Carver:

Information is provisions for anyone to get better life, information presently can get by anyone on everywhere. The information can be a knowledge or any news even restricted. What people must be consider while those information which is from the former life are difficult to be find than now is taking seriously which one is acceptable to believe or which one the resource are convinced. If you find the unstable resource then you obtain it as your main information there will be huge disadvantage for you. All those possibilities will not happen within you if you take Teaching Secondary Mathematics as the daily resource information.

Denise Niemi:

Spent a free time and energy to be fun activity to perform! A lot of people spent their down time with their family, or their own friends. Usually they undertaking activity like watching television, likely to beach, or picnic inside park. They actually doing same task every week. Do you feel it? Will you something different to fill your own free time/ holiday? May be reading a book could be option to fill your cost-free time/ holiday. The first thing that you'll ask may be what kinds of publication that you should read. If you want to try look for book, may be the guide untitled Teaching Secondary Mathematics can be fine book to read. May be it may be best activity to you.

Michelle Favors:

In this age globalization it is important to someone to receive information. The information will make someone to understand the condition of the world. The fitness of the world makes the information simpler to share. You can find a lot of sources to get information example: internet, paper, book, and soon. You will see that now, a lot of publisher that print many kinds of book. Often the book that recommended to your account is Teaching Secondary Mathematics this publication consist a lot of the information on the condition of this world now. This specific book was represented how can the world has grown up. The dialect styles that writer make usage of to explain it is easy to understand. The actual writer made some exploration when he makes this book. This is why this book acceptable all of you.

Emily Ferrell:

Is it anyone who having spare time and then spend it whole day by watching television programs or just lying on the bed? Do you need something totally new? This Teaching Secondary Mathematics can be the answer, oh how comes? The new book you know. You are therefore out of date, spending your extra time by reading in this brand-new era is common not a nerd activity. So what these textbooks have than the others?
