This book will challenge long held certainties and beliefs. It tells of the origins, evolutionary journey and eventual destiny of the spiritual energy that is found within all forms of life and throughout the cosmos. How does that energy manifest within us and other life forms? Does it survive the death of the mortal shell? Is Gaia Theory correct and our planet is, indeed, a living entity? Does our destiny lie beyond our solar system? This book lays the foundation for a spiritual quest as it examines these ideas and leads the reader towards the goal of cosmic consciousness. Reading these pages will energise your spiritual mind and enable you to walk towards the light of a true spiritual awakening.
