Cracking the Coding Interview: 150 Programming Questions and Solutions

Gayle Laakmann McDowell

Cracking the Coding Interview: 150 Programming Questions and Solutions Gayle Laakmann McDowell Now in the 5th edition, Cracking the Coding Interview gives you the interview preparation you need to get the top software developer jobs. This is a deeply technical book and focuses on the software engineering skills to ace your interview. The book is over 500 pages and includes **150 programming interview questions and answers**, as well as other advice.

The full list of topics are as follows:

The Interview Process
This section offers an overview on questions are selected and how you will be evaluated. What happens when you get a question wrong? When should you start preparing, and how? What language should you use? All these questions and more are answered.

Behind the Scenes
Learn what happens behind the scenes during your interview, how decisions really get made, who you interview with, and what they ask you. Companies covered include Google, Amazon, Yahoo, Microsoft, Apple and Facebook.

Special Situations
This section explains the process for experience candidates, Program Managers, Dev Managers, Testers / SDETs, and more. Learn what your interviewers are looking for and how much code you need to know.

Before the Interview
In order to ace the interview, you first need to get an interview. This section describes what a software engineer's resume should look like and what you should be doing well before your interview.

Behavioral Preparation
Although most of a software engineering interview will be technical, behavioral questions matter too. This section covers how to prepare for behavioral questions and how to give strong, structured responses.

Technical Questions (+ 5 Algorithm Approaches)
This section covers how to prepare for technical questions (without wasting your time) and teaches actionable ways to solve the trickiest algorithm problems. It also teaches you what exactly "good coding" is when it comes to an interview.

150 Programming Questions and Answers
This section forms the bulk of the book. Each section opens with a discussion of the core knowledge and strategies to tackle this type of question, diving into exactly how you break down and solve it. Topics covered include

- Arrays and Strings
- Linked Lists
- Stacks and Queues

- Trees and Graphs
- Bit Manipulation
- Brain Teasers
- Mathematics and Probability
- Object-Oriented Design
- Recursion and Dynamic Programming
- Sorting and Searching
- Scalability and Memory Limits
- Testing
- C and C++
- Java
- Databases
- Threads and Locks

For the widest degree of readability, the solutions are almost entirely written with Java (with the exception of C / C++ questions). A link is provided with the book so that you can download, compile, and play with the solutions yourself.

Changes from the Fourth Edition: The fifth edition includes over 200 pages of new content, bringing the book from 300 pages to over 500 pages. Major revisions were done to almost every solution, including a number of alternate solutions added. The introductory chapters were massively expanded, as were the opening of each of the chapters under Technical Questions. In addition, 24 new questions were added.

Cracking the Coding Interview, Fifth Edition is the most expansive, detailed guide on how to ace your software development / programming interviews.

From reader reviews:

Timothy Patrick:

Do you have favorite book? If you have, what is your favorite's book? Book is very important thing for us to be aware of everything in the world. Each reserve has different aim or perhaps goal; it means that guide has different type. Some people experience enjoy to spend their time to read a book. They are reading whatever they take because their hobby will be reading a book. How about the person who don't like reading a book? Sometime, individual feel need book when they found difficult problem or even exercise. Well, probably you will want this Cracking the Coding Interview: 150 Programming Questions and Solutions.

Mary McKay:

As people who live in the modest era should be revise about what going on or details even knowledge to make all of them keep up with the era which is always change and move ahead. Some of you maybe may update themselves by examining books. It is a good choice for you but the problems coming to a person is you don't know what one you should start with. This Cracking the Coding Interview: 150 Programming Questions and Solutions is our recommendation to cause you to keep up with the world. Why, because this book serves what you want and wish in this era.

Judith Carter:

Publication is one of source of know-how. We can add our information from it. Not only for students but native or citizen require book to know the change information of year in order to year. As we know those textbooks have many advantages. Beside all of us add our knowledge, also can bring us to around the world. By the book Cracking the Coding Interview: 150 Programming Questions and Solutions we can get more advantage. Don't that you be creative people? To become creative person must choose to read a book. Just choose the best book that appropriate with your aim. Don't possibly be doubt to change your life at this book Cracking the Coding Interview: 150 Programming Questions and Solutions. You can more attractive than now.

Kari Annis:

Some people said that they feel uninterested when they reading a e-book. They are directly felt this when they get a half parts of the book. You can choose typically the book Cracking the Coding Interview: 150 Programming Questions and Solutions to make your own personal reading is interesting. Your personal skill of reading proficiency is developing when you including reading. Try to choose straightforward book to make you enjoy you just read it and mingle the idea about book and reading through especially. It is to be very first opinion for you to like to open up a book and go through it. Beside that the reserve Cracking the Coding Interview: 150 Programming Questions and Solutions can to be a newly purchased friend when you're feel alone and confuse in doing what must you're doing of that time.
