About The Book Armand Jean du Plessis, Duc de Richelieu, the great French cardinal-statesman, was born in Paris on September 5, 1585, of a noble family, and was at first educated for the profession of arms, but entered the Church in order to become Bishop of Luçon in 1606. Having come up to Paris to make his way in the world, he was appointed almoner to the young queen Anne of Austria, and rose in 1616 to be Secretary of State for War and for Foreign Affairs. He received the cardinal's hat in 1622, and for a period of eighteen years, from 1624 to 1642, he was, in everything but name, the Majesty of France. His mind was bold, unscrupulous, remorseless, and inscrutable. Yet it was always noble--the minister who sent so many to the scaffold could truly say that in his vast labours he had but one pleasure, to know that so many honest folk slept in security while he watched night after night. He was a friend to literature, was founder of the Academy, and was himself a considerable author in history and theology. His greatest work, "Testament Politique du Cardinal de Richelieu," which was published in 1764, and in which is embodied his counsel in statecraft, is a literary achievement of no small importance, exhibiting as it does not only a political acumen of a very high order but an acute faculty for literary expression. Richelieu died on December 4, 1642. For more eBooks visit [www.kartindo.com](http://www.kartindo.com)
