Goody Gumdrops takes the shape of this sweet treat and turns them into whimsical animals and objects.

Ed Emberley's multi-million-selling drawing alphabet system has never gone out of style. His original series of drawing books has been selling steadily since the '70s. In this new hi-tech world, people young and old continue to feel good about the drawing system Ed created. This feeling of success, combined with his whimsical illustration style, has kept the original books in print and created a demand for more.

The *Ed Emberley On The Go!* series takes Ed's drawing system and updates it for today's busy lifestyle, without the need to charge a battery or worry about an expensive tablet. A black pen or marker, even a pencil, is all you need to enjoy these pads. No need to carry paper and a book and markers. The images range from super simple for the little ones to more complex for the more experienced, with pages for practice and frames for the favorites. There are picture frames, note cards, even comic strips where you can bring your favorite characters to life.

Tear-out pages make it easy to share with siblings and friends, perfect for a birthday party, makes a great placemat for restaurant dining, a great gift, and no worries outside at the beach or in the park.
