Flow of Fluids: Through Valves, Fittings and Pipe Technical Paper No. 410 crane company engineering department

New in the 2009 Edition: For the 2009 edition, additional valves and their resistance coefficients were added based on tests performed within the Crane Engineering Laboratories. Industry research was gathered on the latest calculation methods for hydraulic resistance and in resistance values for wyes and tees. Chapters on pumps, control valves, and flow meters were included and over thirty-five new sources have been added to the book. TP-410 is published by Crane Co., one of the world's leading suppliers of valve products and services.
