Positive Classroom Discipline Fredric H. Jones

Used in many college courses, Positive Classroom Discipline describes a non-adversarial approach to managing student disruptions that combines high behavioral standards with personal responsibility. The majority of the book describes skills of classroom management, and these sections have been updated in Tools for Teaching. However, Positive Classroom Discipline goes beyond the classroom to describe discipline management at the school site level. The latter chapters deal with topics as diverse as the school discipline code, the management of the cafeteria and playground, the management of office referrals and the interface between the school and the juvenile justice system.
