Juniper Ash: One of the best sci fi books (science fiction, apocalyptic, post-apocalyptic, thriller, adventure) A. E. Oglesby

Best sci fi books: Juniper Ash is an exciting new adult science fiction book. *They're only clones...* There was a before, once. Five years ago, I was declared a Privilege. Calamity was introduced into Chicago. They preached that the Oddities were no more than roaches. Five years ago, we were clones. *It's not genocide...* Today, ash falls from the sky. Calamity fills our body instead of blood. We think we're humans. We believe we're alone here, in our drug-addled city of ash. There are people here too. We don't know that, nor will we ever, but they're here. The League is everywhere, battling each other. Experimentation against extermination. *It's not murder if they aren't people...* There was a time before that. It was a time before all this madness. Things were simple. People were people. Life was life. But that was years ago.
